

## **Politics – The Real Sides**

(Blog 0002 AndrewHadden.com)

God wants the world to know the lay of the land in politics, the forces at work, the sides, “the real sides,” as he expressed it. God has taught me many things, but, if this comes anywhere close to doing what he says it should by this statement, it will be with a great deal of his help. I will do my best to say what he anoints me to say.

You live on a battlefield, an ancient and ongoing one, between forces aligned with God and those aligned with his enemy, Satan, and his aligned supernatural beings, principalities, fallen angels, and more, including demons. Demons are the powerful spirits of the offspring of human women and fallen angels, fallen angels tasked to be watchers of humanity but falling and having relations with human women, and producing genetic properties never intended by God that cause their souls to remain on the earth to trouble man for eons. [See Genesis 6 and qualified scholars.] These offspring were very evil and very large, giants. These are not myths. This is why God directed the Israelites to wipe out all of the nations in the promised land that had polluted DNA such that their offspring produced ever increasing numbers of demons – to draw men toward sin and Satan for thousands of years to come. Many on the earth worship demons and fallen principalities, underlings of Satan. They are drawn to do terrible things, including sacrifice their own children, or those they abduct. This still goes on today, even in America. There are many eyewitnesses of these things, and I am among them, as is my wife – but not by our choice.

Many have sold their souls for money. We used to hear of rock stars and entertainers and actors doing this, but it is much more widespread, even in America. There are organizations with secret vows and secret meetings that present the appearance of respectability and even goodness, and they have meeting halls all across America, but especially in seats of government, all the way down to county seats. As people progress through their ranks, hoping for success in their business and professional endeavors (including politics), by having the “good connections” these secret societies provide, they have to make vows that may seem like nonsense but entrap them by pronouncing invitations to supernatural beings, including demons, to gradually rule them more and more. They do get rewarded, but at the cost of their souls, and many times at the cost of traumatizing and molesting their own children and grandchildren as the demons gain more and more control. And that control is transferred to the children they molest because that level of trauma breaks down defensive barriers to demons – and the Bible teaches that people that have sexual relations become “one flesh” – it is spiritually as if they have one body. Then demons can pass freely to the flesh, the bodies, of those molested by people with demons within them.

But let us be clear, Satan and demons do not generally work like Hollywood movies have portrayed. They like to work in secret such that people do not know they are being inhabited by more and more demons and becoming more and more under their control. This works better if the goal is to rule the world and have all humanity helplessly under your power. How do I know? I have cast out hundreds of demons and been led by God to know their devices for claiming more and more people outside their conscious awareness. I have also fought higher-level spiritual entities aligned with Satan. They can have great powers of deception that operate

like instant hypnosis. Great deception works through them to keep people from seeing the truth of their condition and the level of control they and demons have gained.

We are at that point in America. Very few understand how bad the situation really is, and how badly the battle really is going to preserve America and the few truly free Christians within her. Satan seeks our annihilation and is much closer to achieving it than most think. I am sent to awaken the nation and the world before they fall completely under the control of the rising Antichrist. That is my calling and I have been prepared over forty years for it. I am to be a defender and deliver of God's people in the end times – and these are the end times. Awaken or die. That is the moment in time, in the eons of the flow of the history of the world, at which we now stand. Awaken or die.

This battle is not between political parties. It is between those that are doing Satan's bidding, knowingly or unknowingly as pawns, to place the Antichrist in power, versus those that align themselves with Christ and with freedom. The Antichrist is not the figure on the white horse in Heaven in the book of Revelation. It is deception to think so, deception that is working to help the Antichrist rise. See elsewhere in scripture to see his nature, the book of Daniel. He rises behind the scenes by subterfuge – like election fraud and bribing rulers with all the benefits of tyranny down the line when he finally takes power in person. They are not after just political power, and certainly not for the benefit of the nations they pretend to serve, they are seeking totalitarian power where they can take anything they want and anyone they want, including anyone's wife, or daughters, or little children.

I know the evil that is practiced all over America. Human sacrifice is practiced in this nation to gain spiritual power to take rulership of governments at all levels, and gain control over others to gain money, sex, and power of every kind. Abortion facilitates human sacrifice of undocumented human beings. Don't be deceived. Great evil is among us, rising, and it is rising in government. How many in government are in secret societies? Mark them well. Many eyewitnesses have exposed these societies as secretly Satanic or occult. Many have exposed the occult nature of their rituals and vows. And it is well known that they pledge unwavering loyalty to their leaders in the cult/society – not the people and the nation or government they pledge publicly to serve – even to the point of openly pledging to break the law to protect even murderers who are in their secret society. Would this not support election fraud at every level, as well as in the legislatures and the courts, even the Supreme Court? Others have long linked Supreme Court decisions to their loyalties to occult secret societies. It is time to listen to all the eyewitnesses that have spoken loudly for generations – or perish. Wake up America!

What do you do? Do you want to be free? Do you want to protect yourselves and your loved ones? This is a battle with no neutral ground. There is no power that can stand against these spiritual enemies that control and empower what we see as our human "enemies" except those who have aligned themselves with Jesus Christ, who was sent to break Satan's control over humanity. His sacrifice paid the penalty for sin that God's rules demanded, and only his sacrifice can do that. If your sin is not covered by that sacrifice you are under the domain of Satan and he will draw you under more and more control. If you have accepted Christ's sacrifice as the payment for your sin, you must then pursue forsaking sin – because if you have not asked forgiveness for and turned from sin, sin will place you in bondage to Satan again. God expects

us to purify ourselves, with his help. The Bible teaches spiritual warfare, especially in Ephesians chapter 6 – but much of the teaching on spiritual warfare comes before that – where it talks of forsaking sin. Sin that has not been repented of is like holes in our armor – that makes it hard to stand in the battle we are in. Sin establishes a claim for Satan to use in the legal system of the spiritual realm to do things to people. The Apostle Paul, in Romans 6:16, indicates that you become slaves to the one you yield yourselves to obey – Satan, who advocates sin, or God, who advocates right living. Having done these things, you can then enter the battle for America against the powers of darkness seeking to destroy us all – a battle first fought on our knees in prayer.

God is allowing America, and the world, to be shaken so that people forsake their sins and fall on their knees and cry out to him. That is the first step in turning the tide of what is going on. Then we can also stand up and be heard in the public square and at the halls of government. And we can pray for our enemies, so that they will repent and come forward as eyewitnesses of the schemes to pervert our elections and grab control of our nation through unlawful means. Then we can remove from power those that seek to subvert our government for their evil and selfish goals, and we can put in place more protections to prevent this from happening again. We can root out evil in government with God's help and by standing together against evil and lawlessness, regardless of which candidate we voted for or which side of debatable issues we stand on.
